

### **You Asked Us?**

*Q: There are lamps and other furnishings and furniture throughout our home that we don't really use. Can these items be removed, so we don't have to worry about them possibly getting damaged?*

A: Yes, KAUST furniture and furnishings can be permanently removed from KAUST homes. Residents can place a request for the removal via 959. A team will come to inspect the items for any damage. For items that pass the inspection, they'll then be collected and permanently removed from the home. Residents are advised to keep a personal record of the transaction. For more information and contacts visit the [Materials Management](#) webpage on the [Community Life](#) intranet.
